Assignment:

Big Motion: Spend 7-10 minutes shooting in Shutter Priority mode. You will shoot one of the other groups running/walking, skipping, etc. Then spend 7-10 minutes shooting in Aperture Priority mode. You will shoot one of the other groups running/walking, skipping, etc. In both instances try freezing motion and panning. Try to get your subject in focus with a blurred background (depth of field blur) and subject motion blur.

Note: Camera lens using is:_

Small Motion: Spend 7-10 minutes shooting in Shutter Priority mode. You will shoot one of the other groups throwing dice, blowing bubbles, etc. Then spend 7-10 minutes shooting in Aperture Priority mode. You will shoot one of the other groups throwing dice, blowing bubbles, etc In both instances try freezing motion and panning. Try to get your subject in focus with a blurred back-ground (depth of field blur) and subject motion blur.

Note: Camera lens using is:_

Once in the classroom,

upload your images and pick your top 3 big motion and your top 3 small motion images.

Post them to your blog and note the settings for each image (mode/ss/f-stop/ISO).

Then convert 2 of your favorite images to black & white using an adjustment mode/s.

Then answer the following questions.

EACH TEAM MEMBER NEEDS TO POST TO THEIR BLOG. YOU DO NOT HAVE TO CHOOSE THE SAME 6 IMAGES (3 pts. per image x 8 = 24).

Answer the following questions (2 pts. each):

- 1. Which image is your favorite and why?
- 2. Was your subject in focus and your background blurry, if not, what do you think you could have done to get your subject in focus and your background blurry?
- 3. Did changing your image to Black & White add drama to it, wh/why not?

Total of 30pts.
